

Enhance Your  
Future Health  
Career!

# ATTENTION ALL IU PRE-HEALTH STUDENTS:

COME JOIN IU's MEDLIFE Club (Bloomington Campus) WEEKEND

## PHLEBOTOMY TRAINING CLASS!

Become a  
Trained  
Phlebotomy  
Technician!

Enhance your future health career by joining our popular, intensive 2-day, weekend phlebotomy training course in which you will:

- ✓ Acquire a unique and invaluable skill set to enhance your future health career and education
- ✓ Set yourself apart from other competing applicants (med school, DO, PA, dental, nursing, EMT, etc.)
- ✓ Potentially open up additional student job/volunteer opportunities for you in the healthcare field
- ✓ Participate in a class that integrates formal lecture and practical hands-on training instruction
- ✓ Learn *and* perform a successful and safe blood draw; intro to IV placement technique
- ✓ Understand both the 'how's' *and* the why's of drawing blood safely, proper technique and pain management
- ✓ Progress at your own rate and skill level under direct supervision

*Upon your successful completion of the class you will receive your certificate as a phlebotomy technician. No prior experience required*

- **Class Date:** Sat. & Sun, Oct 22<sup>nd</sup> through Oct 23<sup>rd</sup>, 2022
- **Class Times:** 9am – ~6pm Saturday and Sunday (Saturday sign-in begins at 8:15am)
- **Location:** TBA
- **Registration:** \$80 deposit paid in advance – reserves your spot in the course + a separate \$55 Club fee (deposit + Club fee will be applied toward *total cost*)
- **Total Cost:** \$435 (this the total cost for the class and includes the \$80 deposit, the \$55 Club fee and all study materials)

*"I got my phlebotomy certification from M.E.T. Services during the spring of my freshman year of college. Despite only having two full days of instruction, the class did a very good job of training me in the basic skills needed to perform venipuncture. The next year, I was able to get a job at Meriter Hospital as a phlebotomist, which I held for the next two and a half years. The skills that I learned and the clinical experiences that I gained were extremely valuable to my medical school application. In fact, I would say taking the class was the single best thing I did as a pre-medical undergraduate student."*
